NEW GOLD FIELDS.

REWARDS TO DISCOVERERS.

THE Government are prepared to give Rewards to the discoverers of New Gold Fields, in accordance with the following Regulations:—

1. That person will be deemed the discoverer who shall first find gold, mark out a claim, and notify the same in writing to the Gold Commissioner of the district, if there be one—if not, to the Police Magistrate for the district, or of the nearest district. In such notification the discoverer shall state, as nearly as practicable, the exact locality, and the distance from the nearest gold workings, or nearest town.

2. No reward will exceed one thousand pounds. In fixing the amount to be paid for any discovery regard will be had to the number of men employed in the new gold field, its distance from the nearest gold workings, the character of the deposit in which the gold occurs, and the depth of sinking.

3. If two or more persons simultaneously discover gold in the same locality, or in places immediately adjacent, and they each severally comply with the conditions abovementioned, the sum proper to be awarded will be divided amongst the several persons who have discovered the gold fields in such manner the Government may deem just.

4. Rewards shall be given in accordance with the following scale, namely:—

a. For the discovery of a gold field, distant more than twenty miles from the nearest gold workings, and on which there shall be employed three months after the report of the discovery having been made not less than 200 men, a sum not exceeding £500.

b. For the discovery of a gold field, distant more than twenty miles from the nearest gold workings, and on which there shall be employed six months after the report of the discovery not less than 500 men, a sum not exceeding £1,000.

The words "nearest gold workings" shall mean gold workings on which miners are actually employed in searching for gold.

The above rewards are in addition to the prospecting, or reward claims, to which, by the Gold Fields Regulations of 31st October, 1873, discoverers of new fields are entitled.

ELECTRIC TELEGRAPH LINE.

ROMA, VIA SURAT, TO ST. GEORGE.

TENDERS will be received at the Office of the Superintendent of Electric Telegraphs, Brisbane, until noon, on MONDAY, the twenty-third day of February next, from persons desirous of contracting for the supply of all material, except wire and insulators, and for all workmanship necessary for the erection of the undermentioned line of Telegraph, according to the terms, general conditions, and specifications appended hereto.

From Roma, via Surat, to St. George, a distance of one hundred and ten (110) miles, more or less.

The wire and insulators to be supplied by the Government, and delivered to the contractor at Brisbane, about two months after the notification of the acceptance of the Tender.

Tenders must state separately:—

1. Price, per mile, for clearing and timber work.
2. Price, each, for extra poles, where necessary.
3. Price, per foot, for extra length poles, where necessary.
4. Price, per mile, for affixing insulators and stretching wire.

The whole contract to be completed and handed over to the Government, within eight (8) months from the notification of the acceptance of the tender.

GENERAL CONDITIONS.

Payment will be made monthly to the extent of seventy-five (75) per cent. on the value of the work reported to have been completed by the officer appointed to inspect the same; but, not-

withstanding such report and payment on account, the Superintendent of Electric Telegraphs, or other officer appointed by him in that behalf, shall have full power at any time afterwards, before final payment shall be made, of rejecting and condemning any of the work or materials in respect of which such report and payments may have been made. The total balance will be paid when the entire contract shall have been completed to the satisfaction of the Government.

The contractor may avail himself of the facilities afforded by "*The Electric Telegraph Act*" for obtaining materials, on signing a bond indemnifying the Government against any claims for compensation arising from the action of the contractor, and providing for any claims being paid by the Superintendent from moneys due to the contractor, if not otherwise settled.

The contractor will be responsible for all claims for compensation for damage to fences or other property, caused by the erection of the line; also, for damage so caused to roads; and if such claims are not defrayed, the Superintendent is authorised to pay the same from any moneys due to the contractor.

Should the contractor fail to proceed in the execution of, or to complete the work in the manner and at the rate of progress required by the Government, it shall be in the power of the Government, by a notice in the *Queensland Government Gazette*, to terminate the contract as far as relates to the work remaining to be done, and to enforce the penalties for the non-fulfilment of the contract; and all sums of money which may be due to the contractor, together with all materials and implements in his possession on the ground, and all sums of money, whether named in the bond to be entered into by the contractor or otherwise, as penalties for the non-fulfilment of the contract, shall be forfeited to the Government, and the amount shall be considered as ascertained damages for breach of contract.

Attached to each tender there must be a memorandum signed by the party tendering, and two responsible persons as sureties, agreeing to be answerable for the due performance of the contract within the time stipulated, in the event of the tender being accepted; and undertaking, in that event, that they will severally execute and deliver at the office of the Crown Solicitor, in Brisbane, within ten (10) days from the notification of the acceptance of the tender, a Bond to Her Majesty in a sum equal to twenty (20) per cent. on the amount of the tender.

The Government does not bind itself to accept the lowest or any tender.

SPECIFICATION.

The course of the line to be marked out by the contractor, under the direction of the inspecting officer.

All trees and underwood standing within forty (40) feet on each side of the line to be felled, and all timber within a radius of twenty (20) feet from each pole to be cleared away, and a good straight bridle track, of not less than eight (8) feet in width, to be left open within the clearing.

Any branches overhanging from trees beyond the distance mentioned, which, in the judgment of the inspecting officer, might endanger the line, to be removed.

All existing cleared roads which may become blocked by fallen timber must be cleared by the removal of the timber to the original width of such roadway. In cases where tracks may become blocked, all fallen timber must be removed, leaving a cleared space of not less than twenty (20) feet in width, following the course of such track.

Poles to be heavy straight saplings, of the best description of approved hardwood (no spotted gum or Moreton Bay ash being allowed), with the bark removed, not less than nine (9) inches in diameter at five (5) feet from the butt, and five (5) inches in diameter at the top, and twenty-five (25) feet in length; to be carefully and thoroughly charred from the base upwards over a space of six (6) feet, and well coated with the best coal tar; the top to

be firmly bound at one (1) inch from its extremity with good hoop iron, of not less than one (1) inch wide. The top of each pole to be served with a thick coating of white lead.

The poles to be not more than eighty-eight (88) yards apart, unless by special permission; to be sunk five (5) feet in the ground, placed in a perpendicular position, and well rammed with rubble and earth. At angles, or other places where required, struts, or supports of wood, to be supplied, and fixed as directed.

Insulating pins (to be provided by contractor) to be of split ironbark, according to pattern supplied, and to be fitted as directed; the lip of the insulator to be not less than one inch from the top of the pole. The wire to be so stretched that the deflection between any two posts shall not exceed two (2) feet. Joints or splices to be made as directed, and the wire tied to the insulator with the binding wire supplied.

All material used in the construction of this work, or any part of it, to be of the best quality, and, together with the workmanship, are to be subject to the final approval or rejection of the Superintendent of Electric Telegraphs, or any officer appointed by him to inspect the same.

Tender forms, and every information, may be obtained on application at the office of the Superintendent of Electric Telegraphs, Brisbane.

[No. 34.

Department of Public Lands,
Brisbane, 3rd March, 1874.

PAYMENTS UNDER "THE CROWN LANDS ALIENATION ACT OF 1868."

THE attention of Selectors under "*The Crown Lands Alienation Act of 1868*" is directed to the provisions of the fifty-first clause thereof, and also to the Amended Regulation established under said Act, bearing date 5th March, 1869, which provides that the second payment shall be made on or before the 31st March in each and every year, and that the amount to be paid shall be proportionate to the number of clear months intervening between the expiration of twelve months from date of selection and 31st March next succeeding; and that in default of such payment the lease shall be forfeited, and the land selected, and all improvements thereon shall revert to the Crown. Provided that the Lessee may defeat such forfeiture for non-payment of rent by paying to the Land Agent in cash, within ninety days of the day on which the rent shall have fallen due, a sum equal to the amount due, together with an additional sum equal to one-fourth part thereof by way of penalty.

The accompanying Schedules of the Payments due on the 31st March, are published for general information; and it is hereby notified that the payment of rent on any selection included in these Schedules or otherwise, will not place the Selector in a better position to claim a title in the event of it coming within the knowledge of the Government that any other provisos or conditions of the Act, or of the leases under which the lands are held, have been violated.

Secretary for Lands.*

VOL. XV.]

THURSDAY, 5TH MARCH, 1874.

[No. 35.]

Colonial Secretary's Office,
Brisbane, 27th February, 1874.

SUPPLIES FOR CIVIL SERVICE, 1875.

TENDERS will be received at this Office, until Noon, on **MONDAY**, 6th April next, from persons willing to contract for the Supply of Stationery, Surveyors' Materials, Ironmongery, Ship Chandlery, Upholstery, and Brushware, as per accompanying lists, during the year 1875, in such quantities as may be required from time to time by the Colonial Storekeeper, in Brisbane, from whom printed forms of Tender and all necessary information can be obtained.

It will be optional for persons to tender for any one or more of the classes into which the supplies are divided, but no tender can be received for only a portion of the articles enumerated in each class.

Ad valorem duties to be included in the prices quoted.

" A sample of each article to be tendered for will be kept open for inspection in the Colonial Stores, and each article supplied must be in every respect equal to the sample."

The Tenders must state the price at which each separate article tendered for is to be supplied.

Attached to each Tender there must be a memorandum signed by the party tendering and two responsible persons as sureties, agreeing to be answerable for the due performance of the contract in the event of the Tender being accepted, and undertaking in such case that they will severally execute and deliver, at the Office of the Civil Crown Solicitor, in Brisbane, within fourteen days from the notification of the acceptance of the Tender, a Bond to Her Majesty for securing such performance, in the sum of one hundred pounds.

The probable quantities of each article required are given for the guidance of persons concerned, but it must be understood that they are only approximative, and the contractors must supply more or less of each article as required.

The Government does not bind itself to accept the lowest or any Tender.

A. MACALISTER.

"CROWN LANDS ALIENATION ACT OF 1868."

IN pursuance of the Rule prescribed in the first clause of the Regulations established under the provisions of "The Crown Lands Alienation Act of 1868," the following Letter of Instructions, addressed to the Commissioners of Crown Lands appointed under the above recited Act, in relation to their duties, is published for general information.

T. B. STEPHENS.

[CIRCULAR.]

Department of Public Lands,
Brisbane, 6th March, 1874.

SIR,—I have the honor to acquaint you that His Excellency the Governor, with the advice of the Executive Council, has been pleased to approve of the following instructions, for the guidance of the Land Commissioners, in respect to the issue of certificates on proof of fulfilment of conditions in selections under "The Crown Lands Alienation Act of 1868":—

1. As the applicant for every selection declares that the land is taken up for his own use, and not as agent or trustee of any other person, and as the Act provides that such declaration shall be carried out in a *bond fide* manner (*vide* section 54), it is incumbent on you, as the officer intrusted with the issue of certificates under the Act, to inquire as to whether the land is occupied *bond fide* by the selector, or if he does not reside in person on it, whether it is used or occupied by him for his own benefit. Should stock belonging to another person be grazing on the land, or the selection be included within the fenced paddock of a sheep or cattle station, the property of a firm in which the selector has no beneficial interest, there is presumptive evidence that the use of the land is not that contemplated by the Act. The greatest care should be taken that no certificates be issued unless you are satisfied in your own mind, and on personal knowledge, that the conditions have been *bond fide* fulfilled by the original selector, and not by any other person, and that the land has been held by him for his own use. The completeness of the documentary evidence does not justify you in acting on it in the absence of a thorough knowledge of the facts.

2. In cases where the selectors do not personally reside on their selections, the bailiffs should be their own servants, or they cannot fulfil the condition of residence. Mere evidence of some person having resided, or perhaps only slept on a selection, without proof of his being the selector's servant and the residence continuous, is not sufficient to satisfy the requirements of the Act. The bailiff should also not be in the employment of any other person than the selector; and if the land is not used by the selector, and the bailiff is not his servant, but paid by some other person—say, as a shepherd or otherwise—there are good grounds for withholding the issue of a certificate.

3. Although the issue of a certificate does not deprive the Government of demanding fresh evidence of the fulfilment of conditions under section 57 of the Act, at the same time it is not desirable that certificates should be issued except in strict accordance with the spirit and intention of the Act.

I have the honor to be,

Sir,

Your obedient servant,

T. B. STEPHENS,

Secretary for Public Lands.

The Land Commissioner,

District.

NEW GOLD FIELDS.

REWARDS TO DISCOVERERS.

THE Government are prepared to give Rewards to the discoverers of New Gold Fields, in accordance with the following Regulations:—

1. That person will be deemed the discoverer who shall first find gold, mark out a claim, and notify the same in writing to the Gold Commissioner of the district, if there be one—if not, to the Police Magistrate for the district, or of the nearest district. In such notification the discoverer shall state, as nearly as practicable, the exact locality, and the distance from the nearest gold workings, or nearest town.

2. No reward will exceed one thousand pounds. In fixing the amount to be paid for any discovery regard will be had to the number of men employed in the new gold field, its distance from the nearest gold workings, the character of the deposit in which the gold occurs, and the depth of sinking.

3. If two or more persons simultaneously discover gold in the same locality, or in places immediately adjacent, and they each severally comply with the conditions abovementioned, the sum proper to be awarded will be divided amongst the several persons who have discovered the gold fields in such manner the Government may deem just.

4. Rewards shall be given in accordance with the following scale, namely:—

a. For the discovery of a gold field, distant more than twenty miles from the nearest gold workings, and on which there shall be employed three months after the report of the discovery having been made not less than 200 men, a sum not exceeding £500.

b. For the discovery of a gold field, distant more than twenty miles from the nearest gold workings, and on which there shall be employed six months after the report of the discovery not less than 500 men, a sum not exceeding £1,000.

The words "nearest gold workings" shall mean gold workings on which miners are actually employed in searching for gold.

The above rewards are in addition to the prospecting, or reward claims, to which, by the Gold Fields Regulations of 31st October, 1873, discoverers of new fields are entitled.

ST. GEORGE.

THE time for receipt of Tenders for constructing Telegraph Line from Roma, *via* Surat, to St. George, has been extended to SATURDAY, 14th March next.

GEORGE THORN, JUNR.

Postmaster-General's Office,
Brisbane, 21st January, 1874.

ELECTRIC TELEGRAPH LINE.

ROMA, *VIA* SURAT, TO ST. GEORGE.

TENDERS will be received at the Office of the Superintendent of Electric Telegraphs, Brisbane, until noon, on SATURDAY, the fourteenth day of March next, from persons desirous of contracting for the supply of all material, except wire and insulators, and for all workmanship necessary for the erection of the undermentioned line of Telegraph, according to the terms, general conditions, and specifications appended hereto.

From Roma, *via* Surat, to St. George, a distance of one hundred and ten (110) miles, more or less.

The wire and insulators to be supplied by the Government, and delivered to the contractor at Brisbane, about two months after the notification of the acceptance of the Tender.

Tenders must state separately:—

1. Price, per mile, for clearing and timber work.
2. Price, each, for extra poles, where necessary.
3. Price, per foot, for extra length poles, where necessary.
4. Price, per mile, for affixing insulators and stretching wire.

The whole contract to be completed and handed over to the Government, within eight (8) months from the notification of the acceptance of the tender.

GENERAL CONDITIONS.

Payment will be made monthly to the extent of seventy-five (75) per cent. on the value of the work reported to have been completed by the officer appointed to inspect the same; but, notwithstanding such report and payment on account, the Superintendent of Electric Telegraphs, or other officer appointed by him in that behalf, shall have full power at any time afterwards, before final payment shall be made, of rejecting and condemning any of the work or materials in respect of which such report and payments may have been made. The total balance will be paid when the entire contract shall have been completed to the satisfaction of the Government.

The contractor may avail himself of the facilities afforded by "The Electric Telegraph Act" for obtaining materials, on signing a bond indemnifying the Government against any claims for compensation arising from the action of the contractor, and providing for any claims being paid by the Superintendent from moneys due to the contractor, if not otherwise settled.

The contractor will be responsible for all claims for compensation for damage to fences or other property, caused by the erection of the line; also, for damage so caused to roads; and if such claims are not defrayed, the Superintendent is authorised to pay the same from any moneys due to the contractor.

Should the contractor fail to proceed in the execution of, or to complete the work in the manner and at the rate of progress required by the Government, it shall be in the power of the Government, by a notice in the *Queensland Government Gazette*, to terminate the contract as far as relates to the work remaining to be done, and to enforce the penalties for the non-fulfilment of the contract;

and all sums of money which may be due to the contractor, together with all materials and implements in his possession on the ground, and all sums of money, whether named in the bond to be entered into by the contractor or otherwise, as penalties for the non-fulfilment of the contract, shall be forfeited to the Government, and the amount shall be considered as ascertained damages for breach of contract.

Attached to each tender there must be a memorandum signed by the party tendering, and two responsible persons as sureties, agreeing to be answerable for the due performance of the contract within the time stipulated, in the event of the tender being accepted; and undertaking, in that event, that they will severally execute and deliver at the office of the Crown Solicitor, in Brisbane, within ten (10) days from the notification of the acceptance of the tender, a Bond to Her Majesty in a sum equal to twenty (20) per cent. on the amount of the tender.

The Government does not bind itself to accept the lowest or any tender.

SPECIFICATION.

The course of the line to be marked out by the contractor, under the direction of the inspecting officer.

All trees and underwood standing within forty (40) feet on each side of the line to be felled, and all timber within a radius of twenty (20) feet from each pole to be cleared away, and a good straight bridle track, of not less than eight (8) feet in width, to be left open within the clearing.

Any branches overhanging from trees beyond the distance mentioned, which, in the judgment of the inspecting officer, might endanger the line, to be removed.

All existing cleared roads which may become blocked by fallen timber must be cleared by the removal of the timber to the original width of such roadway. In cases where tracks may become blocked, all fallen timber must be removed, leaving a cleared space of not less than twenty (20) feet in width, following the course of such track.

Poles to be heavy straight saplings, of the best description of approved hardwood (no spotted gum or Moreton Bay ash being allowed), with the bark removed, not less than nine (9) inches in diameter at five (5) feet from the butt, and five (5) inches in diameter at the top, and twenty-five (25) feet in length; to be carefully and thoroughly charred from the base upwards over a space of six (6) feet, and well coated with the best coal tar; the top to be firmly bound at one (1) inch from its extremity with good hoop iron, of not less than one (1) inch wide. The top of each pole to be served with a thick coating of white lead.

The poles to be not more than eighty-eight (88) yards apart, unless by special permission; to be sunk five (5) feet in the ground, placed in a perpendicular position, and well rammed with rubble and earth. At angles, or other places where required, struts, or supports of wood, to be supplied, and fixed as directed.

Insulating pins (to be provided by contractor) to be of split ironbark, according to pattern supplied, and to be fitted as directed; the lip of the insulator to be not less than one inch from the top of the pole. The wire to be so stretched that the deflection between any two posts shall not exceed two (2) feet. Joints or splices to be made as directed, and the wire tied to the insulator with the binding wire supplied.

All material used in the construction of this work, or any part of it, to be of the best quality, and, together with the workmanship, are to be subject to the final approval or rejection of the Superintendent of Electric Telegraphs, or any officer appointed by him to inspect the same.

Tender forms, and every information, may be obtained on application at the office of the Superintendent of Electric Telegraphs, Brisbane.

"CROWN LANDS ALIENATION ACT OF 1868."

IN pursuance of the Rule prescribed in the first clause of the Regulations established under the provisions of "The Crown Lands Alienation Act of 1868," the following Letter of Instructions, addressed to the Commissioners of Crown Lands appointed under the above recited Act, in relation to their duties, is published for general information.

T. B. STEPHENS.

[CIRCULAR.]

Department of Public Lands,
Brisbane, 6th March, 1874.

SIR.—I have the honor to acquaint you that His Excellency the Governor, with the advice of the Executive Council, has been pleased to approve of the following instructions, for the guidance of the Land Commissioners, in respect to the issue of certificates on proof of fulfilment of conditions in selections under "The Crown Lands Alienation Act of 1868":—

1. As the applicant for every selection declares that the land is taken up for his own use, and not as agent or trustee of any other person, and as the Act provides that such declaration shall be carried out in a *bond fide* manner (*vide* section 54), it is incumbent on you, as the officer intrusted with the

issue of certificates under the Act, to inquire as to whether the land is occupied *bona fide* by the selector, or if he does not reside in person on it, whether it is used or occupied by him for his own benefit. Should stock belonging to another person be grazing on the land, or the selection be included within the fenced paddock of a sheep or cattle station, the property of a firm in which the selector has no beneficial interest, there is presumptive evidence that the use of the land is not that contemplated by the Act. The greatest care should be taken that no certificates be issued unless you are satisfied in your own mind, and on personal knowledge, that the conditions have been *bona fide* fulfilled by the original selector, and not by any other person, and that the land has been held by him for his own use. The completeness of the documentary evidence does not justify you in acting on it in the absence of a thorough knowledge of the facts.

2. In cases where the selectors do not personally reside on their selections, the bailiffs should be their own servants, or they cannot fulfil the condition of residence. Mere evidence of some person having resided, or perhaps only slept on a selection, without proof of his being the selector's servant and the residence continuous, is not sufficient to satisfy the requirements of the Act. The bailiff should also not be in the employment of any other person than the selector; and if the land is not used by the selector, and the bailiff is not his servant, but paid by some other person—say, as a shepherd or otherwise—there are good grounds for withholding the issue of a certificate.

3. Although the issue of a certificate does not deprive the Government of demanding fresh evidence of the fulfilment of conditions under section 57 of the Act, at the same time it is not desirable that certificates should be issued except in strict accordance with the spirit and intention of the Act.

I have the honor to be,

Sir,

Your obedient servant,

T. B. STEPHENS,

Secretary for Public Lands.

NEW GOLD FIELDS.

REWARDS TO DISCOVERERS.

THE Government are prepared to give Rewards to the discoverers of New Gold Fields, in accordance with the following Regulations:—

1. That person will be deemed the discoverer who shall first find gold, mark out a claim, and notify the same in writing to the Gold Commissioner of the district, if there be one—if not, to the Police Magistrate for the district, or of the nearest district. In such notification the discoverer shall state, as nearly as practicable, the exact locality, and the distance from the nearest gold workings, or nearest town.

2. No reward will exceed one thousand pounds. In fixing the amount to be paid for any discovery regard will be had to the number of men employed in the new gold field, its distance from the nearest gold workings, the character of the deposit in which the gold occurs, and the depth of sinking.

3. If two or more persons simultaneously discover gold in the same locality, or in places immediately adjacent, and they each severally comply with the conditions abovementioned, the sum proper to be awarded will be divided amongst the several persons who have discovered the gold fields in such manner the Government may deem just.

4. Rewards shall be given in accordance with the following scale, namely:—

a. For the discovery of a gold field, distant more than twenty miles from the nearest gold workings, and on which there shall be employed three months after the report of the discovery having been made not less than 200 men, a sum not exceeding £500.

b. For the discovery of a gold field, distant more than twenty miles from the nearest gold workings, and on which there shall be employed six months after the report of the discovery not less than 500 men, a sum not exceeding £1,000.

The words "nearest gold workings" shall mean gold workings on which miners are actually employed in searching for gold.

The above rewards are in addition to the prospecting, or reward claims, to which, by the Gold Fields Regulations of 31st October, 1873, discoverers of new fields are entitled.

By Command,

J. MALBON THOMPSON.

"CROWN LANDS ALIENATION ACT OF 1868."

IN pursuance of the Rule prescribed in the first clause of the Regulations established under the provisions of "*The Crown Lands Alienation Act of 1868*," the following Letter of Instructions, addressed to the Commissioners of Crown Lands appointed under the above recited Act, in relation to their duties, is published for general information.

T. B. STEPHENS.

[CIRCULAR.]

Department of Public Lands,
Brisbane, 6th March, 1874.

SIR,—I have the honor to acquaint you that His Excellency the Governor, with the advice of the Executive Council, has been pleased to approve of the following instructions, for the guidance of the Land Commissioners, in respect to the issue of certificates on proof of fulfilment of conditions in selections under "*The Crown Lands Alienation Act of 1868*":—

1. As the applicant for every selection declares that the land is taken up for his own use, and not as agent or trustee of any other person, and as the Act provides that such declaration shall be carried out in a *bonâ fide* manner (*vide* section 54), it is incumbent on you, as the officer intrusted with the issue of certificates under the Act, to inquire as to whether the land is occupied *bonâ fide* by the selector, or if he does not reside in person on it, whether it is used or occupied by him for his own benefit. Should stock belonging to another person be grazing on the land, or the selection be included within the fenced paddock of a sheep or cattle station, the property of a firm in which the selector has no beneficial interest, there is presumptive evidence that the use of the land is not that contemplated by the Act. The greatest care should be taken that no certificates be issued unless you are satisfied in your own mind, and on personal knowledge, that the conditions have been *bonâ fide* fulfilled by the original selector, and not by any other person, and that the land has been held by him for his own use. The completeness of the documentary evidence does not justify you in acting on it in the absence of a thorough knowledge of the facts.

2. In cases where the selectors do not personally reside on their selections, the bailiffs should be their own servants, or they cannot fulfil the condition of residence. Mere evidence of some person having resided, or perhaps only slept on a selection, without proof of his being the selector's servant and the residence continuous, is not sufficient to satisfy the requirements of the Act. The bailiff should also not be in the employment of any other person than the selector; and if the land is not used by the selector, and the bailiff is not his servant, but paid by some other person—say, as a shepherd or otherwise—there are good grounds for withholding the issue of a certificate.

3. Although the issue of a certificate does not deprive the Government of demanding fresh evidence of the fulfilment of conditions under section 57 of the Act, at the same time it is not desirable that certificates should be issued except in strict accordance with the spirit and intention of the Act.

I have the honor to be,

Sir,

Your obedient servant,

T. B. STEPHENS,

Secretary for Public Lands.

NEW GOLD FIELDS.

REWARDS TO DISCOVERERS.

THE Government are prepared to give Rewards to the discoverers of New Gold Fields, in accordance with the following Regulations:—

1. That person will be deemed the discoverer who shall first find gold, mark out a claim, and notify the same in writing to the Gold Commissioner of the district, if there be one—if not, to the Police Magistrate for the district, or of the nearest district. In such notification the discoverer shall state, as nearly as practicable, the exact locality, and the distance from the nearest gold workings, or nearest town.

2. No reward will exceed one thousand pounds. In fixing the amount to be paid for any discovery regard will be had to the number of men employed in the new gold field, its distance from the nearest gold workings, the character of the deposit in which the gold occurs, and the depth of sinking.

3. If two or more persons simultaneously discover gold in the same locality, or in places immediately adjacent, and they each severally comply with the conditions abovementioned, the sum proper to be awarded will be divided amongst the several persons who have discovered the gold fields in such manner the Government may deem just.

4. Rewards shall be given in accordance with the following scale, namely:—

a. For the discovery of a gold field, distant more than twenty miles from the nearest gold workings, and on which there shall be employed three months after the report of the discovery having been made not less than 200 men, a sum not exceeding £500.

b. For the discovery of a gold field, distant more than twenty miles from the nearest gold workings, and on which there shall be employed six months after the report of the discovery not less than 500 men, a sum not exceeding £1,000.

The words "nearest gold workings" shall mean gold workings on which miners are actually employed in searching for gold.

The above rewards are in addition to the prospecting, or reward claims, to which, by the Gold Fields Regulations of 31st October, 1873, discoverers of new fields are entitled.

J. MALBON THOMPSON.

NOTICE TO MARINERS.

THE following Notice to Mariners is published for general information.

WILLIAM HEMMANT,
Colonial Treasurer.

VICTORIA.

NAVIGATION OF THE WEST CHANNEL.

EXTRACTS from Captain Stanley's Report, relative to the re-survey of the southern portion of the West Channel, are published for general information.

1. *Royal George Bank*.—This bank has shoaled one foot, and moved four hundred (400) feet outwards towards the Heads.

2. *Swan Island* is gradually washing away, but the sand from this place is going (apparently) towards filling up the Queenscliffe bight, and not in any great degree towards the formation of banks in the West Channel.

3. *Swan Spit*.—A shoal is forming south of the Swan Spit Pile Light; at present the depth at a distance of three hundred (300) feet from the light is twelve feet. There is another shoal forming to the northward of the light, at a distance of one and three-quarter ($1\frac{3}{4}$) cables; upon this there is as little as six feet.*

4. *The most dangerous shoal* is that known to exist (and marked with a black buoy) laying N.E. by E. three and one-half ($3\frac{1}{2}$) cables from Pile Light, with thirteen feet of water on it. There is a good channel to the northward of the shoal, with not less than eighteen (18) feet, and a probability of not getting less than twenty (20) feet of water. The black buoy marking the shoal is in sixteen (16) feet of water; the shoalest depth—thirteen (13) feet—lies nearly three hundred (300) feet to the north-westward.

Queenscliffe Bight.—Great changes have taken place since 1864. Six (6) banks with three and four feet of water have been found, and four of the six are each nearly a cable in extent. The outer two of these banks are in a line between Queenscliffe High Light and Swan Spit Pile Light, the south-west one being nine (9) cables from the Queenscliffe High Light, and the other nine (9) cables from the Pile Light, the two being distant from each other four (4) cables.

Notice is hereby given, that in consequence of the above changes—

1. A chequered buoy will be immediately placed on the dangerous shoal to the N.E. of the Swan Spit Pile Light, in lieu of the present black buoy, to allow vessels to pass on either side of it. The channel recently formed between it and the Swan Spit Pile Light is one and one-half ($1\frac{1}{2}$) cables wide.

2. A small black cask buoy will also be placed on the shoal to the southward of the Swan Spit Pile Light until it is removed.

The old sailing directions cautioning vessels not to approach within sixty (60) fathoms of Lighthouse will still keep ships clear of this recently formed shoal to the southward of the Pile Lighthouse.

3. The recently formed banks in the Queenscliffe bight being out of the navigable channel, the old clearing marks, viz.:—Lonsdale Lighthouse open of Shortland's Bluff will clear the edge of the bank referred to.

4. Plans of the recent changes will be posted at the Custom House and all the harbor offices for general information, and can also be obtained at this office.

Chief Harbor Master.

* This shoal bears nearly due north (magnetic), and is one and one-fourth ($1\frac{1}{4}$) cables distant from Pile Lighthouse, and is out of the channel.—C. B. PAYNE, C.H.M.

The Queen's Most Excellent Majesty in Council.
WHEREAS by an Act of Parliament made and passed in the session of Parliament holden in the thirty-third and thirty-fourth years of the reign of Her present Majesty, intituled "*An Act for Amending the law relating to the Extradition of Criminals*," it was amongst other things enacted, that where an arrangement has been made with any foreign state with respect to the surrender to such state of any fugitive criminals, Her Majesty

may, by Order in Council, direct that the said Act shall apply in the case of such foreign state; and that Her Majesty may, by the same or any subsequent order, limit the operation of the order, and restrict the same to fugitive criminals who are in or suspected of being in the part of Her Majesty's dominions specified in the order, and render the operation thereof subject to such conditions, exceptions, and qualifications as may be deemed expedient:

And whereas a treaty was concluded on the thirteenth day of November, one thousand eight hundred and seventy-two, between Her Majesty and the Emperor of Brazil for the mutual extradition of fugitive criminals, which treaty is in the terms following:—

Her Majesty the Queen of the United Kingdom of Great Britain and Ireland, and His Majesty the Emperor of Brazil, having judged it expedient, with a view to the better administration of justice, and to the prevention of crime within their respective territories and jurisdictions, that persons accused, or convicted, of the crimes hereinafter enumerated, being fugitives from justice, should under certain circumstances be reciprocally delivered up, have resolved to name their plenipotentiaries for the celebration of a treaty for this purpose, that is to say:

Her Majesty the Queen of the United Kingdom of Great Britain and Ireland, George Buckley Mathew, Esquire, Companion of the Most Honorable Order of the Bath, Her Envoy Extraordinary and Minister Plenipotentiary to His Majesty the Emperor of Brazil;

And His Majesty the Emperor of Brazil, the Marquis of S. Vicente, a Councillor of State, Dignitary of the Order of the Rose, Senator and Grandee of the Empire;

Who, having communicated to each other their respective full powers, found in good and due form, have agreed upon and concluded the following articles:—

ARTICLE I.

The High Contracting Parties engage to deliver up, reciprocally, those persons who, being accused or convicted of having committed crime in the territory of the one party, shall be found within the territory of the other, under the circumstances and conditions that are laid down in the present treaty.

ARTICLE II.

The crimes for which the extradition shall be granted are the following :—

1. Murder or attempt to murder.
2. Manslaughter.
3. Illegal fabrication, counterfeiting, or falsification, uttering or bringing into circulation counterfeit or falsified money. .
4. Forgery, or imitation, counterfeiting, or falsification, of any document or paper (comprising the crimes designated in the criminal code of Brazil as imitation, counterfeiting or falsification of paper money, notes of banks, or other securities public or private, as well as the intentional use or the bringing into circulation of any papers imitated, counterfeited, or falsified.
5. The purloining, or embezzlement, of moneys or effects, public or private, by abuse of confidence.
6. Frauds, or false or fraudulent pretences, to obtain moneys or effects from another.
7. Bankruptcies subject to criminal prosecution, according to the laws applicable thereunto.
8. Malversation, or fraud, committed by a bailee, banker, agent, factor, trustee, or director, or member, or officer of any company, made criminal by any law in force.
9. Rape, by force or threats.
10. Abduction.
11. Child-stealing.
12. House-breaking, with intent to steal, or to commit other crimes.
13. Crimes resulting from the act of wilfully setting fire to a house, or to buildings connected therewith, to the prejudice of another.
14. Robbery with violence.
15. Piracy according to the law of nations.
16. Sinking or destroying a vessel on the high seas, or the attempt to perpetrate such acts.
17. Crimes arising from assault on board a ship on the high seas, with intent to cause death, or grievous bodily injuries.
18. Crimes arising from the revolt of two or more persons on board a ship on the high seas, against the authority of the captain.
19. Extradition will also take place for participation in any of the above-named crimes, provided that such participation shall be punishable by the laws of both the states of the high contracting powers.

ARTICLE III.

No British subject shall be delivered up by the Government or authorities of the United Kingdom to the Government or authorities of the Empire; and in like manner no Brazilian subject shall be delivered up by the Government or authorities of the Empire to the Government or authorities of the United Kingdom.

If, however, the person who has taken refuge in the territory of the other High Contracting Party shall have become naturalized there after the perpetration of the crime, such naturalization shall not be an obstacle to his extradition according to the stipulations of this treaty.

ARTICLE IV.

The extradition shall not take place if the person claimed has already been tried and acquitted, or punished, or if he is under trial, for the same crime for which extradition is asked. If he should be under trial for any other crime, his extradition shall be deferred until the conclusion of the trial, and the fulfilment of the punishment, when such may have been awarded.

ARTICLE V.

The extradition shall also not take place if, after the perpetration of the crime, or the institution of the penal prosecution, or the conviction thereon, the refugee shall have acquired exemption from prosecution or punishment, by lapse of time, according to the laws of the state appealed to.

ARTICLE VI.

The person claimed shall not be delivered up for crimes of a political character, and when he shall have been delivered up on other grounds he shall

not be punished for anterior political crimes. He shall not, moreover, be delivered up if he can clearly prove that the requisition is made with the object of trying him, or of punishing him, for a political crime.

ARTICLE VII.

A person surrendered cannot be kept in prison, or brought to trial, in the state to which the surrender is made, for any other crime, or on account of any other matters, than those for which the extradition has been granted. This statement is not applicable to crimes committed after the extradition.

ARTICLE VIII.

If the person whose extradition is demanded by one of the High Contracting Parties shall be also claimed by one or more other Governments, on account of crimes committed in their respective territories, the following rule shall be observed :

If he shall be a subject of the High Contracting Party who claims him, the surrender shall be made to it. If he be not so, the other High Contracting Party shall have the power of delivering him up to the reclaiming Government which in the case in question may appear to the former best entitled to the preference.

ARTICLE IX.

A requisition for extradition shall be made through the respective Diplomatic Agents of the High Contracting Powers.

When it relates to a person accused only, it must be accompanied by the warrant of arrest, issued by the competent authority of the state applying for it, and by such evidence as according to the laws of the place where the accused is found, would justify the arrest if the crime was there committed.

If the extradition refers to a person already convicted, the application must be accompanied by a copy of the sentence of condemnation, passed against him, given by a competent tribunal of the state.

The requisition cannot, however, be founded on a sentence passed in *contumaciam*, that is to say, when the delinquent has not been personally cited to defend himself.

ARTICLE X.

If the requisition has been in conformity with the foregoing stipulations, the competent authorities of the state to which it has been addressed shall proceed to the capture of the refugee. The prisoner shall be brought before a competent authority, who is to examine him and conduct the preliminary investigations of the case just as if the apprehension had taken place for crime committed in the same country.

ARTICLE XI.

The extradition shall in no case take place before the expiration of fifteen days counted from the apprehension, and after that delay it shall only be carried out when the evidence has been found sufficient according to the laws of the country applied to, either for subjecting the prisoner to trial if the crime had been there committed, or to prove the identity of the person convicted and condemned by the tribunals of the state making the requisition.

ARTICLE XII.

In the examinations which are to be made in conformity with the foregoing stipulations, the authorities of the state to which application is made, shall admit as valid evidence the sworn depositions or declarations of witnesses, which were taken in the other state, or the respective copies thereof, as well as the judicial documents, warrants, or sentences, transmitted therefrom, provided they are signed or certified by the hand of the judge, magistrate, or public officer of that state, and authenticated, either by the oath of some witness, or by the official seal of the Minister of Justice or some Minister of state.

ARTICLE XIII.

If within two months counting from the date of arrest, sufficient evidence for the extradition shall not have been presented, the person arrested shall be set at liberty. He shall likewise be set at liberty if, within two months of the day on which he was placed at the disposal of the Diplomatic Agent, he shall not have been sent off to the reclaiming country.

ARTICLE XIV.

All the articles found in the possession of the person demanded, at the time of his apprehension, shall be seized in order to their delivery with him, when his extradition shall take place.

This delivery shall not be limited to effects or articles robbed, stolen, or obtained by other crimes, but shall extend to all that might serve as evidence of the crime; it shall be made even when the extradition could not be made after orders to that effect, on account of the flight or death of the person claimed.

ARTICLE XV.

The High Contracting Parties renounce whatever claims they may have for the reimbursement of the expenses incurred for the apprehension and maintenance of the persons to be delivered up, and for their conveyance until they shall be placed on board ship, as they agree to defray these outgoings in their respective countries.

ARTICLE XVI.

The stipulations of the present treaty shall apply to the colonies and other possessions of Her Britannic Majesty.

The requisition for the surrender shall be made to the governor, or to the chief authority, in the colony or possession, by the highest consular agent of Brazil.

The surrender shall be made by the governor or the chief authority, who shall, however, have the power either to make it, or to refer the matter to his government.

Both in the requisitions and in the surrender, the conditions established by the foregoing articles of this treaty shall be, as far as may be possible, adhered to.

As Her Britannic Majesty has the power to adopt special arrangements in the colonies and possessions, respecting the delivering up of delinquents, Her Majesty will facilitate the reclamations of Brazil in this respect, as far as may be possible, with due regard, however, to the provisions of this treaty.

ARTICLE XVII.

The present treaty shall come into force ten days after its publication, and in conformity with the forms prescribed by the laws of the countries of the High Contracting Parties. It will remain in force until one of these shall give notice for its termination, but it shall then remain in force for six months, counted from the day of this notification.

This treaty shall be ratified, and the ratifications exchanged in Rio de Janeiro, within three months, or sooner if possible.

In witness whereof the respective plenipotentiaries have signed the present treaty, and have affixed thereto the seal of their arms.

Done at Rio de Janeiro, on the thirteenth day of the month of November, of the year of our Lord Jesus Christ, one thousand eight hundred and seventy-two.

(L.S.) GEORGE BUCKLEY MATHEW.

(L.S.) MARQUEZ DE S. VICENTE.

The undersigned, plenipotentiaries of Her Majesty the Queen of the United Kingdom of Great Britain and Ireland, and of His Majesty the Emperor of Brazil, charged with making a treaty for the extradition of criminals, upon which they have at this present agreed, having met in conference, took into their consideration the following subjects:—

They directed their attention to the fact that the criminal law of England punishes the crime of infanticide with the same penalty as that of murder,

when accompanied by corresponding circumstances, and that it results therefrom that extradition should take place even for attempting to commit that crime.

On the other hand, they observed, that according to the Brazilian law, infanticide is not punished as murder, nor even as manslaughter, but as a crime distinct from both, and by a minor punishment, and that consequently extradition should not take place for the attempt.

They consequently resolved to declare that extradition shall solely take place for the crime of infanticide, and not for an attempt to commit that crime.

With this declaration they agreed to close this conference, from which the present Protocol emanates, which being found in conformity, was signed, each having a copy thereof.

Done in the city of Rio de Janeiro, the thirteenth day of November, 1872.

(L.S.) GEORGE BUCKLEY MATHEW.

(L.S.) MARQUEZ DE S. VICENTE.

And whereas the ratifications of the said treaty were exchanged at Rio de Janeiro on the twenty-eighth day of August last:

Now, therefore, Her Majesty, by and with the advice of Her Privy Council, and in virtue of the authority committed to her by the said recited Act, doth order, and it is hereby ordered, that from and after the first day of December, one thousand eight hundred and seventy-three, the said Act shall apply in the case of the said treaty with the Emperor of Brazil.

NEW GOLD FIELDS.

REWARDS TO DISCOVERERS.

THE Government are prepared to give Rewards to the discoverers of New Gold Fields, in accordance with the following Regulations:—

1. That person will be deemed the discoverer who shall first find gold, mark out a claim, and notify the same in writing to the Gold Commissioner of the district, if there be one—if not, to the Police Magistrate for the district, or of the nearest district. In such notification the discoverer shall state, as nearly as practicable, the exact locality, and the distance from the nearest gold workings, or nearest town.

2. No reward will exceed one thousand pounds. In fixing the amount to be paid for any discovery regard will be had to the number of men employed in the new gold field, its distance from the nearest gold workings, the character of the deposit in which the gold occurs, and the depth of sinking.

3. If two or more persons simultaneously discover gold in the same locality, or in places immediately adjacent, and they each severally comply with the conditions abovementioned, the sum proper to be awarded will be divided amongst the several persons who have discovered the gold fields in such manner the Government may deem just.

4. Rewards shall be given in accordance with the following scale, namely:—

a. For the discovery of a gold field, distant more than twenty miles from the nearest gold workings, and on which there shall be employed three months after the report of the discovery having been made not less than 200 men, a sum not exceeding £500.

b. For the discovery of a gold field, distant more than twenty miles from the nearest gold workings, and on which there shall be employed six months after the report of the discovery not less than 500 men, a sum not exceeding £1,000.

The words "nearest gold workings" shall mean gold workings on which miners are actually employed in searching for gold.

The above rewards are in addition to the prospecting, or reward claims, to which, by the Gold Fields Regulations of 31st October, 1873, discoverers of new fields are entitled.

NEW GOLD FIELDS.

REWARDS TO DISCOVERERS.

THE Government are prepared to give Rewards to the discoverers of New Gold Fields, in accordance with the following Regulations:—

1. That person will be deemed the discoverer who shall first find gold, mark out a claim, and notify the same in writing to the Gold Commissioner of the district, if there be one—if not, to the Police Magistrate for the district, or of the nearest district. In such notification the discoverer shall state, as nearly as practicable, the exact locality, and the distance from the nearest gold workings, or nearest town.

2. No reward will exceed one thousand pounds. In fixing the amount to be paid for any discovery regard will be had to the number of men employed in the new gold field, its distance from the nearest gold workings, the character of the deposit in which the gold occurs, and the depth of sinking.

3. If two or more persons simultaneously discover gold in the same locality, or in places immediately adjacent, and they each severally comply with the conditions abovementioned, the sum proper to be awarded will be divided amongst the several persons who have discovered the gold fields in such manner the Government may deem just.

4. Rewards shall be given in accordance with the following scale, namely:—

a. For the discovery of a gold field, distant more than twenty miles from the nearest gold workings, and on which there shall be employed three months after the report of the discovery having been made not less than 200 men, a sum not exceeding £500.

b. For the discovery of a gold field, distant more than twenty miles from the nearest gold workings, and on which there shall be employed six months after the report of the discovery not less than 500 men, a sum not exceeding £1,000.

The words "nearest gold workings" shall mean gold workings on which miners are actually employed in searching for gold.

The above rewards are in addition to the prospecting, or reward claims, to which, by the Gold Fields Regulations of 31st October, 1873, discoverers of new fields are entitled.

NEW GOLD FIELDS.

REWARDS TO DISCOVERERS.

THE Government are prepared to give Rewards to the discoverers of New Gold Fields, in accordance with the following Regulations:—

1. That person will be deemed the discoverer who shall first find gold, mark out a claim, and notify the same in writing to the Gold Commissioner of the district, if there be one—if not, to the Police Magistrate for the district, or of the nearest district. In such notification the discoverer shall state, as nearly as practicable, the exact locality, and the distance from the nearest gold workings, or nearest town.

2. No reward will exceed one thousand pounds. In fixing the amount to be paid for any discovery regard will be had to the number of men employed in the new gold field, its distance from the nearest gold workings, the character of the deposit in which the gold occurs, and the depth of sinking.

3. If two or more persons simultaneously discover gold in the same locality, or in places immediately adjacent, and they each severally comply

with the conditions abovementioned, the sum proper to be awarded will be divided amongst the several persons who have discovered the gold fields in such manner the Government may deem just.

4. Rewards shall be given in accordance with the following scale, namely:—

a. For the discovery of a gold field, distant more than twenty miles from the nearest gold workings, and on which there shall be employed three months after the report of the discovery having been made not less than 200 men, a sum not exceeding £500.

b. For the discovery of a gold field, distant more than twenty miles from the nearest gold workings, and on which there shall be employed six months after the report of the discovery not less than 500 men, a sum not exceeding £1,000.

The words "nearest gold workings" shall mean gold workings on which miners are actually employed in searching for gold.

The above rewards are in addition to the prospecting, or reward claims, to which, by the Gold Fields Regulations of 31st October, 1873, discoverers of new fields are entitled.

NEW GOLD FIELDS.

REWARDS TO DISCOVERERS.

THE Government are prepared to give Rewards to the discoverers of New Gold Fields, in accordance with the following Regulations:—

1. That person will be deemed the discoverer who shall first find gold, mark out a claim, and notify the same in writing to the Gold Commissioner of the district, if there be one—if not, to the Police Magistrate for the district, or of the nearest district. In such notification the discoverer shall state, as nearly as practicable, the exact locality, and the distance from the nearest gold workings, or nearest town.

2. No reward will exceed one thousand pounds. In fixing the amount to be paid for any discovery regard will be had to the number of men employed in the new gold field, its distance from the nearest gold workings, the character of the deposit in which the gold occurs, and the depth of sinking.

3. If two or more persons simultaneously discover gold in the same locality, or in places immediately adjacent, and they each severally comply with the conditions abovementioned, the sum proper to be awarded will be divided amongst the several persons who have discovered the gold fields in such manner the Government may deem just.

4. Rewards shall be given in accordance with the following scale, namely:—

a. For the discovery of a gold field, distant more than twenty miles from the nearest gold workings, and on which there shall be employed three months after the report of the discovery having been made not less than 200 men, a sum not exceeding £500.

b. For the discovery of a gold field, distant more than twenty miles from the nearest gold workings, and on which there shall be employed six months after the report of the discovery not less than 500 men, a sum not exceeding £1,000.

The words "nearest gold workings" shall mean gold workings on which miners are actually employed in searching for gold.

The above rewards are in addition to the prospecting, or reward claims, to which, by the Gold Fields Regulations of 31st October, 1873, discoverers of new fields are entitled.

By Command,

J. MALBON THOMPSON.

NOTICE TO MARINERS.

ENDEAVOUR RIVER.

IN consequence of the narrowness of the channel and the want of available space for swinging within the Port, Masters of Vessels bound for the Endeavour River are cautioned not to enter without a Pilot.

If when they arrive off the Port the Pilot is not available, they must either stand off and on until he is able to get out to them, or anchor off the mouth of the river in six fathoms, being careful to keep Walker Point open of Monkhouse Point. They must also have warps in readiness for mooring by the stern, if necessary.

Sailing vessels visiting the Port should be provided with good long lines and handy kedges, as, during the S.E. trades, vessels always have to be warped out of the river.

A Signal Station will shortly be established, from which the necessary directions will be given to vessels arriving off the Endeavour, and warping buoys will also be laid down to facilitate the movements of vessels in and out of the Port.
